

Directions to South Penquite Farm **what3words: families.lushly.answer**

From the A30 Westbound (from Launceston/Devon)

Heading West on the A30 past Launceston take the first exit signposted to St Breward (several miles after Jamaica Inn). This takes you across the Temple Tor road bridge and onto the open moor. Follow this road without turning off (ignoring all turnings for either Blisland or St Breward) for approximately 3 miles and the South Penquite entrance lane will come up on your right.

From the A30 Eastbound (from Bodmin)

Heading East on the A30 past Bodmin, ignore any signs to Blisland and take exit for the Temple Tor road bridge which is signposted to St Breward. This takes you across a cattle grid and left onto the open moor. Follow this road without turning off (ignoring all turnings for either Blisland or St Breward) for approximately 3 miles and the South Penquite entrance lane will come up on your right.

From the village of Blisland (from Wadebridge)

Drive along the top of the village green (leaving the pub on your left) and take the next left on the top corner of the green, which is not actually signposted to anywhere but will shortly pass the village hall. Follow this road for 2 miles; it will take you up onto the moor (over a cattlegrid) and South Penquite entrance lane will come up on your left (after another ½ mile).

From the village of St Breward (from Camelford)

Follow signs out of the village to Blisland. Once you are on the moor (over a cattlegrid) you will after a mile or so cross over a very pretty granite clapper bridge (Delphi Bridge) and on upwards to a T junction. Turn right towards Blisland and the South Penquite entrance lane will come up shortly on your right.

Half way down the lane bear right and choose between the bridge or the ford and then the farm entrance gate will be before you ~ easy! Please do not rely on any Satellite Navigation device you may have as these do not work with our postcode.
