

The Bronze Age hut circles ● ● ●

Record the following measurements:

<p>The diameter (in 2 places)</p> <p>.....m</p> <p>.....m</p>	<p>Circumference (around the edge)</p> <p>.....m</p>	<p>Width of doorway</p> <p>.....m</p>	<p>Height of big stones opposite (hearth stones?)</p> <p>.....m</p>	<p>Width of walls in 3 places</p> <p>.....m</p> <p>.....m</p> <p>.....m</p>
<p>Annexe Width:</p> <p>.....m</p> <p>Length:</p> <p>.....m</p>	<p>Aspect of doorway (the way it's facing)</p> <p>.....</p>	<p>Number of stones around the edge</p> <p>.....</p>	<p>Area of hut circle</p> <p>.....m²</p>	

- ➔ What do you think the main building materials may have been?
.....
- ➔ How many people might have lived in a hut like this? .
.....
- ➔ How would the people have lived at this time?
.....
- ➔ What did they eat?
.....
- ➔ Imagine living in a hut during the Bronze Age. What smells would there have been?
.....
- ➔ Why would life expectancy have been so short?
.....
- ➔ What would have been a disadvantage of this location for a settlement?
.....
