

Watts Penquite, a medieval farm

On the map, part of the medieval settlement is shown. Building A is probably the most recent. It may have been built during the 18th century.

Measure the dimensions of one of the buildings, A, B or C:

Width:m
 Length:m

Total floor space (width x length)m²

Circumferencem

Width of walls in 3 places
m
m
m

Total length of this settlementm

Why was this location chosen for the settlement? Try to give 4 reasons.

The settlement was abandoned between 1809 and 1840. Why do you think this happened?
